

**Professor Iain L Hutchison**

**Curriculum Vitae**

**2017**

## Personal Details

<b>Name</b>	Iain Hutchison
<b>Nationality</b>	British
<b>Professional Registration</b>	GMC number 2657301 GDC number 46701
<b>Medical Protection Society</b>	96260
<b>Specialist listing</b>	Oral and Maxillofacial Surgery Oral Surgery Surgical Dentistry

## Qualifications

FFD RCSI	Oral & Maxillofacial Surgery	November 1985
FRCS (England)	General Surgery	November 1984
FRCS (Edinburgh)	General Surgery	May 1984
MB BS	Royal Free Hospital	July 1980
BDS	Royal Dental Hospital	January 1973

## Prizes, Scholarships & Awards

- The Bevan Prize for Health and Wellbeing Individual award – runner-up 2014
- Awarded The Down Prize of the British Association of Oral and Maxillofacial Surgeons (BAOMS) 2010
- Elected to the Presidency of the British Association of Oral and Maxillofacial Surgeons for 2012 2008
- The Beacon Prize for charity – highly commended 2008
- Honorary Fellowship Association of Surgeons of India 2005
- Ellison Cliffe Lectureship Royal Society of Medicine 2005
- First award of The Beacon Prize for charity – highly commended 2004
- BDA listed top 10 dentists in the UK 2003
- De Puy Surgical Prize  
British Association of Oral & Maxillofacial Surgeons 1997
- FDS RCS ad Eundem 1997
- King's Fund Travelling Fellowship 1989
- The Norman Rowe Clinical Prize  
British Association of Oral and Maxillofacial Surgery 1985
- The Royal Marsden Hospital Head & Neck Oncology Scholarship 1984

## Charitable Activity

- Founded The Facial Surgery Research Foundation-Saving Faces 2000
- Unpaid CEO The Facial Surgery Research Foundation-Saving Faces to present – waiver of salary worth approx. £600,000
- Vice President - The Patients Association (2008 to present)

- Service for 2 charities - the Mercy Ships and Willing and Abel for those patients too complex to treat in home country. Operate pro bono on these in the UK.

## Consultant Appointments

### Consultant in Oral & Maxillofacial Surgery

1. **St Bartholomew's and The Royal London Hospitals** (Dec 1989 -2017)
2. **Homerton Hospital** (Dec 1989 – 2003)
3. **University College London Hospitals H&N Surgery** (2008 – 2010; 2015-2017)

### Current Honorary appointments

- Civilian Consultant to the Army
- Honorary Consultant, Whipps Cross and Homerton Hospitals
- Honorary Consultant to the Football Association of England
- Honorary Consultant to Arsenal and Tottenham Hotspur football clubs
- Honorary Consultant to Saracens and Wasps rugby football clubs
- Honorary Consultant, St Luke's Hospital for the Clergy, London

## Personal Aims and Objectives

Over my 26 years as a consultant I have built a tertiary referral practice in head and neck cancer based on high standards of ablative surgery and reconstruction. I have strived to keep accurate records of my cases. I have also sought to involve the public, primary care practitioners and the Department of Health in projects either designed to prevent orofacial disease and injury or improve people's knowledge so they will seek help earlier in the disease process when treatment is less invasive and more successful.

Over the last fourteen years, my mission has been to encourage, train and inspire surgeons to develop and participate in surgical clinical research with translational elements to improve the evidence base in oral oncology in particular and oral and maxillofacial surgery in general. I have generated the funds and created the research organisation to achieve this. Where possible the research should be conducted through multi-centre national and international prospective randomised surgical trials (PRS) in collaboration with other specialties and disciplines. Where the PRS trials are too difficult I have designed an infrastructure to conduct nationwide prospective cohort studies (national registers/audits) on all aspects of oral and facial surgery.

## A. POSITIONS OF RESPONSIBILITY, ORGANISATION AND LEADERSHIP

### 1. Internationally

- International. Assoc. of Oral Maxfac. Surgeons (IAOMS) Envoy 2014-
- IAOMS Research Board Member 2013-

### 2. Nationally

- Clinical Director National Head and Neck Cancer Audit 2015-
- Director National Facial Oral and Oculoplastic Research Centre 2012-
- National Cancer Intelligence Network (NCIN) Head and Neck SSCRG 2012-16
- Elected President British Association of Oral and Maxillofacial Surgeons 2012
- UK representative to IAOMS 2011-
- Member Union European des Medecins Specialistes UEMS OMFS Board 2011-
- Member Academic and Research Board Roy. Coll. Surg. England 2011-
- Member of Dept of Health advisory group on smoking cessation 2005
- Twice elected to BAOMS National Council 1999 -2003; 2010 -2014
- Department of Health Committee reorganising sterilisation services to prevent the transmission of Creutzfeld-Jakob Disease. 2003
- Chair - Information sub-committee of British Association of Oral & Maxillofacial Surgeons 2001-2003
- UK Co-ordinating Committee on Cancer Research (UKCCCR) Steering Comm. Head and Neck Cancer. I served as one of the two Surgeons 1993-1999
- National Cancer Research Institute (NCRI) Head and Neck Cancer Group 1999 -2002
- Specialist adviser on Head and Neck cancer panel Cancer "BACUP" 1998-2008
- Lead organiser of National Facial Injuries Week for BAOMS 1999
- Co-organiser of Oral Cancer Awareness Campaign for BAOMS 1995
- Care Sector Consortium ODP Review Project - RCS England rep. 1996-1999
- NHS Training Directorate – RCS England representative 1992-1996  
This committee examined and accredited the institutions which train operating department personnel
- Organised facial injury cover for Euro 96 Football Tournament 1996
- Organised facial injury cover for the Rugby World Cup Tournament 2000

### 3. Locally and Regionally as a Consultant

#### (a) Advancement of Service

I believe that cross-fertilisation of ideas between specialties, and even across the artistic/scientific divide, often leads to major advance. Therefore, immediately after being appointed as a consultant I informed clinical colleagues from other specialties of the area of expertise encompassed by oral and maxillofacial surgery. This led to co-operation in the following areas:

- Skull-base surgery for access and ablation - built up with the neurosurgeons
- Tracheostomy service initially with the Intensive Care Unit of the Homerton and then at Barts and The London.
- Surgical Endocrine Service dealing with thyroid and parathyroid disease with the endocrinologists at the Homerton
- Skin cancer service at The Homerton with the dermatologists
- Head and neck reconstruction with free tissue transfer has created a tertiary referral base with patients sent from other consultants for advice and treatment.
- Developing a surgical service for children with facial arterio-venous malformations with paediatric surgeons and interventional radiologists.
- Engaging the psychology department to provide a service to both patients and clinicians

## **(b) In Health Service Management**

### **Associate Clinical Director – Oral and maxillofacial surgery 2000-2007**

As the Clinical Director for Oral and Maxillofacial services covering North East London and West Essex I worked with managers and colleagues to achieve the following:

- Weekly postgraduate half-day lecture and multi-disciplinary pathology / radiology session which attracts trainees from the Region.
- Improvements in layout of clinic space to improve the work environment for our staff and the waiting area for the patients.
- A regional plan providing a managed clinical network service for this area with centralisation of major elective surgery at Barts and The London and provision of a consultant led trauma service covering the whole region.
- New consultant posts created in oral and maxillofacial surgery: 2 at Whipps Cross; 2 at Romford; and 1 each at Homerton and Newham. All posts had sessions at Barts and The London with sub-specialisation in trauma, deformity or oncology as part of clinical managed network. Successful appointment to these posts at a time when very few candidates apply to London posts.
- Collaboration with the Dental School to appoint a new professor and senior lecturer in oral and maxillofacial surgery.
- Development of a postgraduate nursing course in oral and maxillofacial surgery at Barts and The London in collaboration with City University
- In 2003 Bart's and the London NHS Trust, as part of a rationalisation of service, split our service into elective work at the Barts site and emergency and dento-alveolar work at The London Hospital site. This proceeded with relatively little heartache.
- Agreed Increases in OMFS operating time by 30%, bed allocation and occupancy by 10%, outpatient clinics by 50%, juniors by 15%, and office space and secretaries by 75%
- Set up subspeciality clinics in trauma, oncology, salivary gland disease, implantology, premalignancy and TM joint disorders to improve patient experience and teaching and training of undergraduates and postgraduates.

## **4. As a Junior Doctor**

- BMA – Chair N. E. Thames Junior Doctors 1987-1989
- North East Thames Regional Manpower Committee - Member 1987-1989
- University College Hospital Junior Doctors Committee – Chair 1985-1988

## **5. At University**

- 3 times Captain of London University Water Polo team winners of British Student Championships each time 1973, 1976, 1979
- Coach / Team Manager British Student Water Polo team World Student Games Mexico City. 1979
- Coach London University Water Polo team 1982, 1983
- President and Chairman University of London Sports Council 1977-1979
- Member of British Universities Sports Federation Council 1978/9

## **6. At School**

Captain School swimming Team - National schools relay champions 1965  
Midlands Junior Breaststroke Champion 1964

## **B. TEACHING AND EDUCATION**

### **Undergraduate**

- Introduced Applied Head and Neck anatomy teaching for medical and dental students at Barts & The London from the date of my appointment as Consultant in 1989. Then invited to lecture to Medical Students at Charing Cross hospital on the same topic. 1989 - 2006
- Lecture on the Medical Ethics Course for Medical and Dental students at Barts & The London Medical School 1994 - 2012
- Introduced oral and maxillofacial clinical teaching for medical students at Barts during their Clinical Course prior to the merger of the two schools. Formal lectures on head and neck pathology to medical students on their revision course prior to sitting their Finals 1989 - 1998.
- Dental students from Guys attended for clinical attachments with me at Barts 1989 to 1994
- Following the merger of the two schools in 1994 I have provided formal lectures to the dental students and informal teaching on clinics, ward rounds and in theatres.
- I teach undergraduate dental and medical students and M.Sc. and Diploma students on clinics, ward rounds and in the operating theatre informally as part of special study modules in Oral and Maxillofacial surgery.
- I lecture to M.Sc students on Oral Biology course
- Initiated and run weekend teaching course for 350 UK medical students in clinical research with the Facial Surgery Research Foundation (FSRF) and Professor Parveen Kumar. 2008 - present
- SAVING FACES LECTURE SERIES: Initiated and run extra-curricular 28 lecture series on Oral and Maxillofacial surgery for undergraduate dental and medical students at London medical and dental schools and postgraduates with interest in OMFS. 2011 - present

### **Conferences I have organised**

- British Association of Oral and Maxillofacial surgeons annual conference 2012
- British Association of Oral and Maxillofacial surgeons research conference 2012
- Public conference on Tissue engineering at the Science Museum 2009
- Public debate on Face Transplantation with internationally renowned speakers from Europe and UK at The Queen Elizabeth Hall, South Bank Arts Complex, London SE1. Resulted in 2 editorials in the Lancet and The Guardian newspaper. March 2008
- Public debate on stem cell research with internationally renowned speakers from USA and UK at The Queen Elizabeth Hall, South Bank Arts Complex, London SE1. Resulted in 2 editorials for and against in the Lancet, 2 editorials in the BMJ and 2 in The Guardian. June 2005
- Science conference for the general public with five internationally renowned public speakers on genetics, head and neck cancer surgery, ethics, evidence based medicine and oncology. Purcell Room, South Bank Arts Complex, London SE1 June 2004

- Orbital trauma conference at The Royal London 1998

### **Postgraduate Courses I have initiated and organise include:**

- Research Opportunities Training day - For Registrars and Consultants 2011
- 7 Research Summits with GCP training on clinical research and presentations by OMFS. Oculoplastic, Oral Medicine and Orthodontists on ideas for clinical research projects 2013-2015
- London Deanery: 4 Postgraduate courses annually for dentists and doctors to recognise and learn the management of oral cancer; premalignancy; skin disorders; and neck swellings 2010 - 2014
- Weekly postgraduate half-day teaching session, which attracts trainees from North Thames and West Essex.
- Postgraduate courses for dentists and doctors to recognise child abuse and domestic violence in patients presenting with oral and facial injuries.
- Lectures for House Surgeons at The Homerton Hospital on Head & Neck Diseases and Injuries as part of their continuing professional training.

### **National Postgraduate Courses for which I have been Course Tutor**

- Final FDSRCS Course at The Royal College of Surgeons of England 1989-2002

### **Other postgraduate courses I lecture on include:**

- Sub-scapular axis free flap and thyroidectomy cadaver demonstrations and small group teaching on the The South Coast Surgical Anatomy Course for Senior Trainees and Consultants in Oral & Maxillofacial Surgery 1995-2000
- Surgical Approaches for Intracranial Disease for Neurosurgeons at The Hill Surgical Workshop of the Royal College of Surgeons 1995 - present
- General Surgery FRCS Course - St Bartholomew's Hospital - Lecturer and mock examiner. 1992-95
- Lecturer and examiner for the First Aid examination of the British Red Cross Society 1981-1983.
- Royal College of Surgeons of England – Resident Tutor for Final FDS RCS course 1987/8
- Honorary Teacher status at London University 1984 -
- As a Senior Registrar in OMFS I lectured junior staff, nurses, casualty officers, undergraduate and postgraduate MSc dental students.
- Tutorial sessions to medical students during my years in general surgery. 1981-1984
- Part-time Clinical Lecturer at the Royal Dental Hospital 1975-1980  
I undertook this whilst studying medicine. It involved small group teaching and demonstrations. My main role though was to demonstrate and supervise students performing oral surgery.

### **QMUL Activity**

- Personal tutor to medical students 1993-1999
- Member of pastoral pool 2000-2009  
providing help and assistance to medical students
- Medical school selector 1990-date  
Assessing UCAS forms and interviewing prospective medical students

- Senior medical school selector 1997  
This was a scheme set up by Prof M Farthing during his period as Deputy Warden
- Sat on college sub-committee examining disabled student access 1993
- Chaired working group to examine why applicants for medical school did not include many young people from Afro-Caribbean and Bengali families 1995-1997
- President Water Polo Club – Barts and The London 1993-2001
- Accepting 6th Formers for work experience 1990-present
- Lecturing to prospective medical students on behalf of the medical college at open days and at schools in North London 1993 – 2003

## **Examining**

Internal - Medical Undergraduates in Finals at QMUL

External – Birmingham Dental School Part IV BDS 2009- 2012

# **ACHIEVEMENTS AND INNOVATIONS AS A CONSULTANT**

## **C. PATIENT INVOLVEMENT PROJECTS**

### **1. Vice president The Patients' Association**

### **2. Saving Faces Expert Patient Line**

Set up a national service similar to the informal arrangement in Barts by creating a pool of over 300 previous patients with diverse oral and facial conditions who are prepared to be a “buddy” over the ‘phone to patients undergoing treatment for the same condition. Advertised with posters in every GP surgery and local press. Formally evaluating benefit to the new patients and the “expert buddies”.

### **3. Patient involvement in Scientific Advisory Board**

Appointed patients to Trustee, Patron and research committee of FSRF.

Appointed patients to Scientific Advisory Board of the new National Facial Oral and Oculoplastic Research Centre.

### **4. BLT Patient Support Group**

Always involved past patients giving support and advice to new and current patients, for example, allaying the anxiety felt by the patient after surgeon had given them information about the operation prior to gaining consent.

### **5. Saving Faces art Project**

I created the post of Artist in Residence at The Department of Oral & Maxillofacial Surgery and then obtained ethical approval for the artist to paint patients before and after and occasionally during surgery. This post was funded by the Martha Redlich Oral Surgery Research Fund to the tune of £30,000 over an 18 months period. Since the expiry of this fund I paid the artist for a further 2.5 years from my own salary. This project led to the creation of the Saving Faces Art Exhibition which has toured throughout the UK, Europe and the United States over the past 9 years. This has:

- Informed the public about what is possible (and what is not possible) with modern facial surgery.
- Raised awareness that facially disfigured people could lead normal lives.
- Had a cathartic affect on the patients that were painted which has led to research by Iain Hutchison and Paul Farrand (psychologist).

- Had a profound effect on all visitors to the Art Galleries where it has been exhibited and has led to national publicity.

It has been the subject of articles in the Lancet, New England Journal of Medicine, New Scientists, all UK Broadsheet newspapers, Der Spiegel, the New York Times and the South China Morning Post amongst many others and been reviewed by many Television and Radio programmes worldwide. It has been seen by over two million visitors who, gallery curators have told us, differed in their behaviour by staying much longer than normal in the exhibition and by writing copious notes in the comments book. We are continuing to work with state schools to encourage school children to come in and spend time with patients and the artist in hospital to learn about the 'patient experience'.

## D. PUBLIC ENGAGEMENT PROJECTS

### Public Conferences

- 1. Launch of National Facial and Oral Research Centre 2015**  
Held at the Purcell Room at London's South Bank Arts Centre. Attended by over 600 people. Talks from patients and clinicians about the importance of clinical and translational research for all aspects of facial disease disorders and injury
- 2. Science Museum "Who am I?" Exhibition 2010.**
- 3. Public Discourse on Tissue Engineering at the Science Museum 2009** with Ethicist, Surgeon, Psychiatrist, Computer modeller, Materials Scientist and Stem cell researcher 2009. Attended by 400
- 4. Public debate on Face Transplantation and Tissue Engineering 2008** with internationally renowned speakers from Europe and UK at **The Queen Elizabeth Hall**, South Bank Arts Complex, London SE1 - March 2008. Resulted in 2 editorials in the Lancet and The Guardian newspaper. Attended by 900
- 5. Public debate on stem cell research 2005** with internationally renowned speakers from USA and UK at **The Queen Elizabeth Hall**, South Bank Arts Complex, London SE1 - June 2005. Resulted in 2 editorials for and against in the Lancet, 2 editorials in the BMJ and 2 in The Guardian. Attended by 900
- 6. Science conference for the general public with five internationally renowned public speakers on genetics, surgery, ethics, evidence based medicine and oncology.** Purcell Room, South Bank Arts Complex, London SE1 - June 2004. Attended by 600

## E. COMMUNITY AND PRIMARY CARE PROJECTS

### 1. Hackney Mentoring project

In 1997 I brought together a group of ethnically diverse doctors and organised a mentoring project in 3 Hackney secondary schools to raise the aspirations of 12/13 year old children from ethnic minorities and encourage them to consider studying science subjects and even apply for medicine or dentistry. This involved talks to pupils in Year 9 about the challenges and enjoyment gained from working in the healing professions and explanation of the requirements for and mechanisms of obtaining university places to study these subjects.

## **2. Schools Paan prevention project**

15 minute talk on mouth cancer and tobacco habits to 200 pupils at a time in assembly at 2 schools in Tower Hamlets. Mainly Bangladeshi pupils age 11 to 16 years old - 2,000 pupils. Around 1/3<sup>rd</sup> 11 year olds chew paan but 16 year olds no longer chew paan and 1/3<sup>rd</sup> smoke. After talk pupils did speak to parents and grandparents to discourage paan chewing.

## **3. 1995 onwards Mouth Cancer Awareness Weeks**

This, BAOMS' first National information campaign, was initiated following my 1994 BMJ editorial 'Improving the prognosis of oral squamous cell carcinoma' highlighting the reasons that patients present late to primary care and the reasons why primary care practitioners fail to recognise the ominous symptoms and signs. The original week in 1995 was an extraordinary success. Subsequent Oral Cancer Awareness Weeks have been organised in conjunction with Denplan and the BDHF. As a result I sat on a Department of Health Working Party looking at other preventive and screening measures for oral cancer.

## **4. Electronic Rapid Diagnostic Service for Primary Care Practitioners**

The aim of this is to speed cancer referrals to the most appropriate clinician in the patient's locality and reassure those with benign disease at an early stage. The primary care clinician completes a brief pro forma and sends a photograph of lesion. They receive a response within three working days suggesting the appropriate speed of referral with the name and contact details of the appropriate secondary care clinician. It is the first of its kind in the world and has already been used to advise on over 200 patients.

## **5. Facial Injury Prevention Campaigns 1997 and 2008**

I organised this in conjunction with The College of Emergency Medicine, The British Assoc. of Oral & Maxillofacial Surgeons and the Facial Surgery Research Foundation – Saving Faces. The message was Save Face, Drink Sensibly, and highlighted the association of alcohol drinking with serious facial injury in the 15/25 age group. This resulted in:

- The generation of a research paper on the epidemiology of facial injury in the UK. This paper was presented in the United States of America to President Clinton's working party on Violence in the Community.
- Sponsorship from the Portman Group of £40,000.
- Press Conference with the Minister of Health and celebrities to emphasise the problem which in turn led to Home Office work on reducing violent crime by reducing alcohol consumption.
- Production of a video for use in Schools "In your Face" which has been universally popular and in demand by police forces, social workers and schools throughout the United Kingdom.
- Schools talks by oral and maxillofacial surgeons throughout the United Kingdom which are being continued in many areas of the country.
- Widespread introduction of Unbreakable drinking glasses in pubs and clubs.
- Collaboration with the alcohol and Violence reduction Unit of The Metropolitan Police and The Assoc. of Chief Police Officers.

## **6. Dentist Breaking Bad News**

Organised Education courses for dentists and their staff around the UK delivered by OMFS colleagues on mouth cancer recognition, management and discussion with patients. Follow up study to assess whether this course helped dentists confidence with breaking bad news.

## **7. Dental & GMP receptionist study**

To assess whether they recognised the cardinal symptoms of mouth cancer in a telephone call from a putative patient and therefore offered them an urgent appointment.

## **8. 2009 onwards annual conferences for Dentists and their staff on management of mouth cancer and premailnancy**

# **F. RESEARCH**

## **1. Projects in which I have made a significant contribution**

- **Chief Investigator SEND – CRUK funded, NCRI badged**

This was the first prospective randomised study comparing 2 widely different surgical treatment protocols for mouth cancer. 255 patients recruited comparing elective neck dissection with watch and wait from 24 UK centres. A further 6 centres enrolled but never recruited. None of the participating surgeons had ever recruited to a PRT before this study so it was educational for them as well as ultimately answering an important clinical question. Subsidiary study on reasons for patient and surgeon refusal and a registration study on all non-recruited eligible patients (currently over 300). Closed to recruitment July 2015 and publications being prepared

- **UK Chief Investigator International Electroporation study - Genetronics/Inovio funded**

Patients with recurrence after radical treatment randomised to repeat surgery or intra-tumoral bleomycin injection and electroporation. DMC stopped study after 3 years.

- **Chief Investigator Schools binge drinking Prevention PRT – Dept of Health funded**

Prospective randomised study started in 2006 assessing a school intervention to reduce the incidence of drunkenness in teenagers analysing the effect of a 15 minute visually powerful talk on facial injury delivered across the UK by 100 OMFS surgeons to 13/14 year olds with a matched control group and 2 year follow up. 4,000 English pupils from areas of social deprivation as designated by Department of Health in each arm of the study. Detailed results in 42 page report to Department of Health February 2011.

- **Chief Investigator Schools tobacco prevention PRT**

In 2005 I organised and co-ordinated a smoking prevention campaign in 240 schools using UK OMFS surgeons to deliver a powerful visual presentation on mouth cancer. **This campaign was accompanied by a prospective randomised study on the impact of this intervention. 8,000 11/12 year olds were in the intervention group and 8,000 were in a matched control group with a follow up of 3 years analysing their tobacco habits.** This campaign has been covered by the Radio 4 Today programme and national and local TV, press and radio. I was also commended by name for this project in parliament by the Secretary of State. **Summary – works with boys but not girls.**

- **Chief Investigator National Facial Injury Surveys 1997 and 2008**

## **National Facial Injuries Week 2008**

This epidemiological study was organised in conjunction with The College of Emergency Medicine, The British Assoc. of Oral & Maxillofacial Surgeons and the Facial Surgery Research Foundation – Saving Faces. We have collected the results from 8740 patients and are comparing these with the 6,100 injuries studied in 1997. I have been asked to run this study in European countries.

- **Project Adviser**

“Validation of a molecular diagnostic system for oral cancer” – patent applied for and bid to Wellcome / India funding for technology transfer to India. £2 million grant application. Reached final stage but not awarded

- **UKHAN study**

The only surgeon involved in this PRT recruiting nearly 1,000 patients into a study comparing RTX and Chemotherapy with RTX alone in patients with or without prior surgery. I was brought in to improve recruitment in post surgery patients – achieved 260 patient recruitment from multiple centres 5 years after trial started.

- **Oral cancer Patient and Primary care practitioner delay in presentation and referral for treatment**

## **2. Grants attracted (chief applicant unless otherwise stated)**

- Dept of Health 3 year funding of Binge drinking prevention project £34,000 pa
- Cancer Research UK 8 year funding of SEND trial £100,000 pa
- BLT Charitable Foundation 2006-2010 psychology PhD on oral cancer £79,000
- Martha Redlich Oral Surgery Research Fund £30,000
- FA England to fund football facial injury study £20,000
- Welton Foundation 2011 £75,000
- Prognostic value of cancer stem cell properties. Barts and London Charitable Foundation 2011 £153,574 over 2 years (co-applicant)
- Genetronics 3 year bleomycin/electroporation study for recurrent oral cancer 2007 £125,000 p.a - data monitoring committee stopped 2009
- Coventry Community safety team 2008 £18,000
- Staffordshire County Council £1,000
- Aireville school Skipton 2008 £1,000
- Facial Surgery Research Foundation: total raised from 2000 -2013 - £6 million - used to fund 9 PhD students, 3 BAOMS Research Fellow, 3 clinical researchers and 3 research assistants & several PRT
- Wellcome/India £2 million bid for mol. biol. tool to improve early oral cancer detection and cure 2011 - final short list (co-applicant)
- Portman Group for schools alcohol prevention campaign £40,000
- Dental Funds Committee–UMDS Guys & St Thomas’s Hospitals £12,667
- British Association of Oral Maxillofacial Surgeons 1988 £2,000
- Central Research Fund, London University 1988 £2,245
- Local Lead investigator in HOPON trial on role of Hyperbaric Oxygen in reducing post radiation problems CRUK funded

## **3. Research Collaborations**

- **Health Economics York**

Prof Christine Godfrey – tobacco prevention

- **Health Economics Aberdeen**

Marjon van der Pol - SEND study

- **Epidemiology & Statistics CRUK & UCL Cancer Trials Centre**

Prof Allan Hackshaw Schools - prevention projects & SEND

- **Schools health education unit Exeter**

Schools Prevention projects

- **Psychiatry Barts and the London QMUL Medical School**

Prof Ania Korszun. Co-supervising two psychology PhD students on emotional coping of families and patients with mouth cancer and trauma; previous PhD student graduated 2010.

- **Clinical psychology UEL**

Dr Ken Gannon. Schools prevention projects.

- **Stem Cell cancer research - fresh tissue.**

Prof Ian Mackenzie co-supervising one PhD student.

- **Molecular biology research – fresh tissue**

Bid to Wellcome/Indian Govt project on Technology transfer - Validation of a molecular diagnostic system for oral cancer – first two rounds successful, last round January 2012

- **Clinical Collaboration – Tata Memorial Mumbai**

Prof Anil D'Cruz – T1 T2 N0 Oral cancer PRT comparing Elective neck dissection with watch and wait

- **Clinical Collaboration – Chennai**

Prof K Ranganathan Oral and Maxillofacial Pathology Ragas Dental College and Hospital

- **Clinical Collaboration – Bangalore**

Prof Girish Rao OMFS DA Pandu Memorial RV Dental College

- **Behavioural Psychology – Cambridge**

Prof Stephen Sutton. Schools Prevention projects

#### **4. Activity funded**

Nine PhD students in molecular biology, stem cell research and psychology and an annual grant for a single Clinical Research Fellowship for a BAOMS fellow in training in partnership with BAOMS

#### **5. Saving Faces-The Facial Surgery Research Foundation (FSRF)**

The mission of this charity is to raise funds for and lead research into the prevention and treatment of all facial diseases and injuries. It was launched in June 2000 by the Government's Secretary of State for Culture Media and Sport at The National Portrait Gallery. Our model is to conduct prospective randomised surgical trials to improve the evidence base for best treatment practice in these conditions.

- I am the founder and unpaid chief executive research of this charity. I have received a commendation from the Beacon prize for this achievement.

- In my role as chief executive I have brought together a group of people with the expertise necessary to be Trustees of the charity; people in the public eye who have agreed to be patrons; and internationally renowned scientists to sit on our research committee and Scientific Advisory Boards.
- I have raised £6 million pounds over a fourteen-year period since the charity's inception. I manage 9 full time research staff and two administrators.
- We fund two Psychology PhD students examining the psychological impact of cancer and physical trauma.
- I organised a special conference to launch the National Clinical trials centre in 2004 at the South Bank Arts centre of London, where approximately 600 people came along to listen to outstanding scientists talk about latest advances in their areas of expertise. This received extensive coverage from BBC TV and radio and ITV and Sky news.
- In 2005 I organised a public debate on the merits and dangers of "Stem Cell research" attended by nearly 1,000 members of the public at the South Bank Arts centre of London. This attracted 2 articles in the Guardian newspaper, 2 articles in the Lancet and 2 articles in the BMJ written by 6 of our guest speakers. BBC TV's Newnight programme continued the debate that night using 2 of our speakers.

As CEO I have to manage and appraise research and admin staff, advertise and appoint where necessary, decide on strategy and ensure implementation and gain income to cover outgoings of about £450,000 per annum. Around 90% of this is spent on research.

## **6. Human tissue bank**

I set this up in 2008 in compliance with all HTA requirements. We now have over 700 blood, saliva and tissue samples stored for future research with patient consent to compare tumour samples with their clinical outcomes.

## **7. The National Facial Oral and Oculoplastic Research Centre**

This is the Royal College of Surgeons of England Head and Neck Clinical Trials Unit. It is also the national research centre for three national specialty organisations: the British Association of Oral and Maxillofacial surgeons; the British Oculoplastic Surgical Society; and the British Orthodontic Society. There is no other national research centre anywhere else in the world.

Its mission is to improve the physical, functional, emotional and sociological outcomes for all patients worldwide following treatment of their oral and facial disease, deformity or injury. It will achieve this by leading international research studies to determine which treatment works best and by discovering innovative and revolutionary treatments. It will also conduct research to improve disease prevention strategies and psychological interventions.

## **8. Cochrane**

Member of Cochrane Review group on Oral Cancer

2005 –

## **9. Reviewer of grant applications**

- RCS England Academic and Research Board member 2010 -

- Cancer Research UK
- Medical Research Council – College of Experts 2006-2008

## 10. NICE

- Reviewer Improving Outcomes in Head and Neck Cancer NICE 2004
- Guidelines group for facial wounds 2014

## G. BIBLIOGRAPHY AND PRESENTATIONS

### I. Chapters in Books (8)

1. **Future perspectives:** in Head and Neck Cancer 4<sup>th</sup> edition 2011 Chapter 38 Pages 376-381 Martin Birchall, Kevin Harrington, Iain Hutchinson (sic) British Association of Otorhinolaryngology Head and Neck Surgery The Royal College of Surgeons of England London
2. **Maxillofacial Injuries in ABC of Major Trauma.**  
Hutchison IL, Hardee PSGF 3rd Edition. BMJ Books. 1999
3. **Maxillofacial Trauma in Trauma Care After the resuscitation room.**  
Hutchison IL. (Ed D.Skinner) BMJ Books London 1997
4. **Reconstructive Surgery - bone and cartilage harvesting in Operative Maxillofacial Surgery.**  
Hutchison IL. (Eds Langdon JD, Patel M F) 93-114 -Chapman & Hall Medical, London 1997
5. **Oral & Maxillofacial diseases in Cambridge Textbook of Accident and Emergency Medicine.**  
Hutchison IL (Eds Skinner D, Swain A, Payton R, Robertson C) 459-480. Cambridge University Press 1997
6. **Facio-maxillary and dental trauma in Cambridge Textbook of Accident and Emergency Medicine.**  
Hutchison IL. (Eds Skinner D, Swain A, Payton R, Robertson C.) 439-458. Cambridge University Press 1997
7. **Complications of radiotherapy in the head and neck – The orofacial surgeon's view in Current Radiation Oncology.**  
Hutchison IL. (Eds Thomas PRM Tobias JS) Arnold London Sydney Auckland. 1996
8. **Major maxillofacial injuries in ABC of major trauma.**  
Hutchison IL, Lawlor M G, Skinner D. (Eds Skinner D, Driscoll P, Earlam R) 33-37 BMJ London 1991

### II. Review Articles and Editorials (19)

1. **Governance, guidelines, audits and revalidation in the 21st century**  
Gallagher J. Blackburn T. Hutchison I. Magennis P. Br J Oral Maxillofac Surg 2015; 53 :409-11
2. **Improving the prognosis of oral squamous cell carcinoma in 2013**  
Hutchison I Br Dental J 2013; 215: 441 DOI:10.1038/sj.bdj.2013.1049
3. **Thyroid Surgery,** Leo H-H Cheng Iain L Hutchison BJOMS 2012, 50:585-591
4. **Celebrating Skin** Hutchison I Lancet 376 (9736): 156-7, 2010, Jul 17

5. **The face of the future** The Guardian newspaper Tuesday March 4<sup>th</sup> 2008
6. **More than skin deep** The Guardian newspaper Monday 30<sup>th</sup> October 2006. Oped article about the potential effects of face transplantation on images of self and identity
7. **Face transplants: is the genie out of the bottle?** Hutchison I. Southern Medical Journal. 99:427-9, 2006 .
8. **Face Transplantation – the crossing of a dangerous medical barrier** The Independent Newspaper December 12<sup>th</sup> 2005 Oped article on the physical and drug hazards of face transplantation
9. **Progress towards randomised control trials in Facial surgery** Hutchison I.L The Journal of Surgery; 2004; 2:14-15
10. **Trends in facial injury**  
Magennis P, Shepherd JP, Hutchison IL, Brown A E. Br Med J; 1998; 316:325-326
11. **(2 articles) Face - The facts Part I & II**
12. **(2 articles) Face - The facts Part I & II**  
Hutchison IL. Sports Medicine 1996
13. **Improving the poor prognosis of oral squamous cell carcinoma**  
Hutchison IL. Br. Med J. 1994, 308:669-670
14. **Litigation hazards of failed extractions**  
Dohvoma C, Hutchison IL. Br Dent.J. 1993,174:389
15. **(3 articles) Oral Mucosal Disease Part I to III**  
Hutchison IL. Gastroenterology in Practice. 1991 6(5):14-16
16. 1992 7(2): 18-20 &
17. 1992 7(4):20-22;
18. **Management of orofacial pain**  
Hutchison IL, Nally F. The Practitioner 1991, 235:72-77
19. **ABC of major trauma: Major maxillofacial injuries**  
Hutchison IL, Lawlor M G, Skinner D. Br Med J 1990, 301:595-599

### III. Original Publications (53)

1. **Are facial injuries really different? An observational cohort study comparing appearance concern and psychological distress in facial trauma and non-facial trauma patients.** Rahtz E, Bhui K, Hutchison I, Korszun A Journal of Plastic, Reconstructive & Aesthetic Surgery (2017), <http://dx.doi.org/10.1016/j.bjps.2017.08.006>
2. **Violent injury predicts poor psychological outcomes after traumatic injury in a hard-to-reach population: an observational cohort study.** Rahtz E, Bhui K, Smuk M, Hutchison I, Korszun A *BMJ Open* 2017;**0**:e014712. doi:10.1136/ bmjopen-2016-014712
3. **To treat or not to treat? Clinicians' views on the management of oral potentially malignant disorders.** Thomson PJ. McCaul JA. Ridout F. Hutchison IL. Br J Oral Maxillofac Surg 2015; 53:1027-1031
4. **Quality of life (QoL) and patient reported outcome measures (PROMS) in radiologically N0 (rN0) necks treated by Sentinel Node Biopsy (SNB) or Elective Neck Dissection (END)** Schilling Clare. Ridout Fran. Hutchison Iain. McGurk Mark. British Journal of Oral and Maxillofacial Surgery 53(10):e98 December 2015 DOI: 10.1016/j.bjoms.2015.08.174
4. **OP87 Psychological distress following facial injury: a prospective study E**

- Rahtz I Hutchison K Bhui A Korszun *Journal of Epidemiology & Community Health* 68(Suppl 1):A43-A43 · September 2014
5. **Quality of life, psychological wellbeing and treatment needs of trauma and head and neck cancer patients.** Shiraz, Farah. Rahtz, Emmylou. Bhui, Kamaldeep. Hutchison, Iain. Korszun, Ania. *British Journal of Oral & Maxillofacial Surgery.* 52:513-7, 2014
  6. **Identification of FOXM1-induced epigenetic markers for head and neck squamous cell carcinomas** Hwang S. Mahadevan S. Qadir F. Hutchison IL. Costea DE. Neppelberg E. Liavaag PG. Waseem A. Teh MT. *Cancer* 119(24):4249-58, 2013
  7. **Exploiting FOXM1-Orchestrated Molecular Network for Early Squamous Cell Carcinoma Diagnosis and Prognosis'** Teh M-T, Hutchison IL, Costea DE, Neppelberg E, Liavaag PG, Purdie K, Harwood C, Wan H, Odell EW, Hackshaw A, Waseem A. *Int J Cancer.* 132 (9):2095-2106, 2013 May 1 '
  8. **Computer guided surgery for implant placement and dental rehabilitation in a patient undergoing sub-total mandibulectomy and microvascular free flap reconstruction.** Andrew Dawood Susan Tanner Iain Hutchison *J of Oral Implantology* 39(4):497-502, 2013
  9. **Barriers to Recruitment for Surgical Trials in Head & Neck Oncology: A survey of trial investigators** Kaur G. Hutchison I. Mehanna H. Williamson P. Shaw R. Tudor Smith C. *BMJ Open* 3 (4) 2013
  10. **CD44 positive cancer stem cells predict the aggressiveness of oral squamous cell carcinoma** Chapireau D Emich H Hutchison I Mackenzie IC *BJOMS* 51(6):e127-e128 sept 2013
  11. **The effects of CD44 down-regulation on stem cell properties of head and neck cancer cell lines.** Kidwai F, Costea DE, Hutchison I, Mackenzie I. *J Oral Pathol and Medicine* 2013; 42: 682-690
  12. **A new implant for nasal reconstruction** Dawood Andrew, Tanner Susan, Hutchison Iain. *International Journal of Oral and maxillofacial implants* 2012 Sep-Oct ;27(5):e90-e92
  13. **Two mechanisms regulate keratin K15 expression in keratinocytes: role of PKC/AP-1 and FOXM1 mediated signalling.** Bose A, Teh M-T, Hutchison IL, Wan H, Leigh IM and Waseem A *PLoS ONE* 2012, 7 (6), e38599
  14. **FOXM1 Induces a Global Methylation Signature that Mimics the Cancer Epigenome in Head and Neck Squamous Cell Carcinoma..** Teh MT, Gemenetzidis E, Patel D, Tariq R, Nadir A, Bahta AW, Waseem A Hutchison IL *PLoS ONE* 2012, 7(3), e34329,
  15. **Interrelationship of depression, stress and inflammation in cancer patients: A preliminary study** J.A. Archer, I.L.Hutchison, S.Dorudi, S.A.Stansfeld, A.Korszun *Journal of Affective Disorders* (2012), <http://dx.doi.org/10.1016/j.jad.2012.05.023>
  16. **Computer guided surgery for implant placement and dental rehabilitation in a patient undergoing sub-total mandibulectomy and microvascular free flap reconstruction.** Dawood A, Tanner S, Hutchison I. *J Oral Implantol.* 2011 Oct 13. [Epub ahead of print]
  17. **Children from developing nations requiring specialist surgery** Boys A Hutchison I Muruglah M *Ann. R Coll Surg Engl (Suppl)* 2011; 93:
  18. **An evaluation of a slideshow that highlights the link between drunkenness and facial injury, with stories about young people who have been permanently disfigured as a consequence of binge drinking (using graphic images of their injuries) as a means of discouraging binge drinking.** Iain Hutchison, Fran Ridout. Report for the Department of Health February 2011

19. **Numb chin syndrome: an ominous clinical sign** Ryba F, Rice S, Hutchison IL British Dental Journal 208:283-5, 2010
20. **Infraorbital Orbitotomy: Modification Of The Weber - Ferguson Approach** Andi K, Holmes S, Hutchison I Br J Oral Maxillofac Surg 2010; 48:44-5
21. **Chemoradiotherapy for locally advanced head and neck cancer: Ten-year follow up of the UK Head and Neck (UKHAN1) trial.** Tobias JS, Monson K, Gupta N, MacDougall H, Glaholm J, Hutchison I, Kadalayil L, Hackshaw A, UK Head and Neck Cancer Trialists' Group Lancet Oncology. 2010;11:66-74,
22. **Immediate implant supported bridgework simultaneous with jaw reconstruction for a patient with mandibular osteosarcoma.** Hutchison IL. Dawood A. Tanner S. British Dental Journal. 2009; 206:143-6.
23. **Survey of pharmacists' advice for people with classical early mouth cancer symptoms** Dentith J, Ridout F, Hutchison I British Journal of Oral and Maxillofacial Surgery 47(7) October 2009 DOI:10.1016/j.bjoms.2009.06.205
24. **Synovial Sarcoma presenting as a parotid mass: case report and review of the literature** Jay A, Hutchison I, Piper K, Farthing PM, Richards PS Head and Neck 2008; 30: 1654-9
25. **Health risks information reaches secondary school smokers.** Ridout F, Charlton A, Hutchison I Health Education Research 2008; 23: 1039-1048
26. **Mood and malignancy: head and neck cancer and depression.** Archer J. Hutchison I. Korszun A. Journal of Oral Pathology & Medicine. 2008;37:255-70
27. **Observation of tumour thickness and resection margin at surgical excision of primary oral squamous cell carcinoma--assessment by ultrasound.** Songra AK. Ng SY. Farthing P. Hutchison IL. Bradley PF. International Journal of Oral & Maxillofacial Surgery. 2006; 35:324-31,
28. **Novel use of ultrasound-guided surface marking of head and neck tumors invading facial skin.** Ng SY. Songra AK. Hutchison IL. Oral Surgery Oral Medicine Oral Pathology Oral Radiology & Endodontics. 2006;101:499-504,
29. **Reconstruction of through-and-through osteocutaneous defects of the mouth and face with subscapular system flaps.** Kalavrezos N, Hardee P, Hutchison I. Annals of The Royal College of Surgeons of England. 2005; 87: 45-52
30. **100 consecutive subscapular axis flaps in the head and neck** Kalavresos N, Hardee P, Hutchison I International Journal of Oral and Maxillofacial Surgery 34:95-95 December 2005 DOI: 10.1016/S0901-5027(05)81252-4
31. **The moon and its relationship to oral and maxillofacial injuries.** Butler S, Songra A, Hardee P, Hutchison I Br. J. Oral Maxillofac Surg 2003: 41:170-2
32. **GDP's self-perceived confidence and anxiety in their clinical and communication skills used when screening for oral cancer: UK variation.** Farrand P, Clover H, Hutchison IL Prim.Dent.Care 2003; 10:81
33. **About face**  
Mark Gilbert Iain Hutchison The New Scientist 173(2330):44-47 February 2002

#### IV. Letters (9)

1. **Re: Thompson M, Adlam DM. Syndrome of Inappropriate anti- diuretic hormone secretion associated with oral squamous cell carcinoma.** Br J Oral Maxillofac Surg 2002; 40:216-219. Hardee PS, Hutchison IL. Br.J.Oral Maxillofac.Surg.2002;40:520
2. **Piercing difficulties.** Hardee PS, Hutchison I. Br.Dent.J. 2000;189:466.
3. **Planning the consultant workforce in oral and maxillofacial surgery.** Hardee PSGF, Holmes S, Ali N, Songra AK, Bradley PF, Cannell H, Carter JLB, Coghlan KM, Hutchison IL. Br.J.Oral and Maxillofac.Surg 1999. 37: 245-246
4. **Bureaucracy of the Purchaser/Provider split Delays Patient Treatment.** Hutchison IL, Hardee P, Barns C. BMJ 1997, 314: 1275
5. **Code is needed to protect inpatients from press publicity.** Hutchison IL, Smith AT. BMJ, 1996: 312: 1163
6. **Dental enamel defects in Coeliac Disease.** Ballinger AB, Hughes C, Kumar P, Hutchison IL, Clark M. Lancet 1994, 343,(8891):230-231
7. **Oral complications of cancer.** Hutchison IL, Br.Med.J. 1991, 302:848
8. **The treatment of ranula and salivary gland neoplasms.** Hutchison IL, Nocton S. Br. Dent J. 1990, 168:318-319
9. **New treatment for Ludwig's Angina.** Hutchison IL, James DR. Br J. Oral Maxillofac Surg. 1989, 27:83-84

#### V. Keynote, Eponymous and Invited Lectures (over 60)

##### 1. Eponymous:

- The Royal Academy of Arts and the Royal Society of Medicine 2<sup>nd</sup> annual lecture on 'Art, Medicine and Society' 2015
- Annual Furlong lecture for Orthopaedic research UK 2012
- Osler Society annual lecture 2011
- Ellison Cliffe annual Royal Society of Medicine lecture. "Face to Face with a model for a 21st century surgeon" 2005

##### 2. Selected Invited

- National Portrait Gallery Public lecture 2014
- Kings Place literary lecture 2013
- TED lecture 2010
- Hard Talk for BBC 2009
- Hay Literary Festival Segovia 2010 & 2017
- Cheltenham Literary Festival 2009
- Hay Literary festival Hay 2009
- Public lecture to re-open the Hunterian Museum of The Royal College of Surgeons of England "The Saving Faces Art project – Its impact on the surgeon, the patients, the artist and the public". 2005
- NCRI conference

Presentation on SEND project to H&N group	2005
- <b>Third Skin Cancer symposium Royal College of Path.</b>	2005
- <b>British Oncological Association</b>	2004
- <b>Home Office, London</b>	
Lecture to launch National alcohol misuse campaign.	2004
- <b>British Association of Head and Neck Oncologists,</b>	
Surgical Research in Head & Neck Oncology.	2004
- <b>Columbia Presbyterian</b>	
- <b>The Medical Research Council</b>	2002
“Surgical trials in head and neck cancer”	
- <b>Institute for Contemporary Arts London.</b>	2002
“Attitudes to facial appearance”	
- <b>The Royal College of Nursing, Head and Neck branch group</b>	2002
- <b>Football Association of England annual conference</b>	1999
Facial Injuries in Sport	
- <b>Annual Conference for Minimally invasive Therapy</b>	1998
- <b>South Asian Neurosurgical Congress, Kathmandu.</b>	1998
- <b>The Institute of Health Service Managers</b>	1996
- <b>British Association of Cancer United Patients (BACUP).</b>	1990
- <b>First Asia-Pacific Skull Base Surgery Course Singapore</b>	1993
- <b>Neurological access Surgery Perth Australia</b>	1991
<b>The changing face of maxillofacial reconstruction.</b>	
International Conference on Oral and Maxillofacial Surgery	1986
<b>Cancer Management Debate</b>	
Conference for Minimally invasive Therapy	1998
<b>The Management of Oral Cancer- The Surgeon's View. 2-handed debate</b>	
The Thames Region British Postgraduate Medical Federation. March	1997

### 3. Selected Keynote

(i) Keynote lectures to multiple International and national associations including:

**British Head and neck Imaging Society**

**International Assoc of OMF surgeons**

**Swedish OMF surgeons**

**American OMF Surgeons**

**Australian and New Zealand OMF Surgeons**

**Turkish OMF surgeons**

**Association of Surgeons of India**

**Key Advances in Head and Neck:**

- **The management of the clinically negative neck in oral cancer**

- **Measuring Progress in prevention of head and neck cancer.**

**The National Portrait Gallery Public Lecture**

Facial Surgery and Art

### 4. Miscellaneous lectures to Hospitals and Grand Rounds

**Examples - College of Physicians and Thomas Jefferson Hospital Philadelphia; University of Nebraska; Emerson College Boston; Memorial Sloan Kettering New York; Columbia Presbyterian New York; UCSF San Francisco; Rotary Clubs; Soroptomists; Dental Hygienists; Medico-Chirurgical Societies; GPs**

## VII. Oral Presentations and Posters (over 90)

## H. Training Posts

### General Oral & Maxillofacial Surgery

6 years and 4 months spent in Oral & Maxillofacial Surgery training posts working for Mr N L Rowe, Mr J Bowerman, Mr R P Juniper, Mr D R James, Professor M Harris, Mr P Blenkinsopp, Mr M Bailey and Mr R Haskell.

### General Surgery

2 years and 6 months including 4 months post General Surgery FRCS.

### Sub-Specialty

- Head and Neck Oncology and reconstruction at The Royal Marsden Hospital London,
- In secondary cleft deformity and craniofacial deformity at The Hospital for Sick Children in London.
- In temporomandibular joint disorders at The Eastman Dental Hospital.
- In Skull Base Surgery with Mr D Archer and Mr R Haskell.
- In major incident trauma after bomb blasts referred to St Stephen's Hospital, St Bartholomew's Hospital and The Royal London Hospital, and train crashes at St Bartholomew's Hospital.

## Editorial Work

Editorial Advisory Board - The British Journal of Oral & Maxillofacial Surgery. 1991-2000

## Journal Referee

Tropical Medicine, The European Journal of Nuclear Medicine, British Medical Journal, British Journal of Oral and Maxillofacial Surgery, International Journal of Oral and Maxillofacial Surgery, The National Medical Journal of India, Diabetic Medicine, Journal of Laryngology and Otology, Trauma,

Judge on BMA Books awards 1997 - 2005.

Judge on Smile Awards 2009 -

## Other Achievements

Captain School swimming Team - National schools relay champions	1965
3 times Captain of London University Water Polo team (winners of British Student Champs)	1973, 1976, 1979
Coch and Manager of British Student Water Polo team to World Student Games Mexico City	1979
Coch London University Water Polo team	1982, 1983
Organised facial injury cover for Euro 96 Football Tournament	1996
Organised facial injury cover for the Rugby World Cup Tournament	2000
